

SISA 2023
LADY'S ISLAND MIDDLE SCHOOL
JUNE 12-16, 2023

Design and Creation – Cardboard Arcade

Teacher: Susan Brown

Students will have the opportunity to engage in the Engineering and Design Process as they plan and create items that can be shared and used by others. Students will create 3-dimensional products and make them visually appealing.

Dance and Story Telling

Teacher: Shaneka Green

Students will develop a story with their classmates and tell that story through dance. Students will create all aspects of the story – setting, plot, characters, etc. Their general curiosity about the creative process will guide the students in the creation of the story.

Theatre and Story Telling

Teacher: Kira LaFoe

In this week-long theatre workshop, students will be given the opportunity to perform different roles within theatre; both giving and receiving direction from their classmates. They will direct, design, and perform a one-act play. Students will also have exposure to costume creation through sewing, prop making, theatrical lighting, improvisational technique, and other aspects of the theatre process.

Instrumental Music

Teacher: Amanda Trimpey

Beginner String Orchestra will help students develop their skills in critical thinking, problem solving, perseverance, memory, and patience. Playing a string instrument is different than Band instruments due to the precision necessary to play it in tune and with good tone. We will build our fine motor skills by learning to move each arm, hand, and finger separately and with finesse. Learning to play a string instrument will develop their aural skills as well through accurately matching pitch and learning to make adjustments when they are out of tune.

Visual Art/Design/Story Telling through Dance

Teacher: Debbielyn Worogs-Dixon

In this week-long session, students will create an original story and tell that story through visual art and dance. Students will collaborate on the setting, plot, character development, costuming, set design, and other aspects to tell their story.
