

JoAnn,

In response to question #1 regarding ERDI (below), please see the updated document attached. Approvers for travel expenses are indicated in the yellow highlighted area. In response to question #2, the answer is no, there were no reimbursements of ERDI related expenses.

Have a good evening,

Tonya

Subject: Two Questions

Herb and Tonya,

So you have enough time to research the answers to my two questions below (posed 8/29/18), I just wanted to let you know I would be discussing the next time the Board (or Finance committee) has P-Card Transparency Reports on its agenda. My two questions as follows pertain to Dr. Moss' use of his BCSD P-Card for ERDI expenses:

Questions:

- 1) Who authorized Dr. Moss' use of a district-issued credit card for ERDI related expenses?
- 2) Did Dr. Moss' reimburse the BCSD for all ERDI related expenses?

Thank you,

JoAnn Orischak

Beaufort County Board of Education

District 11

I enjoyed our meeting today, as well. I appreciate your commitment to meet with all eleven Board members, as I know you are spread thin as our new superintendent of schools. It bears repeating; this fragmented Board came together in a unanimous vote to hire you because of your qualifications, and your willingness to take this challenge on for the year ahead.

Once again, welcome aboard.

Subject: Fwd: 2017 Exchange with Moss re: P-Card

Tonya and Herb,

Thank you for distributing Dr. Moss' P-Card charges and ERDI related charges to the Board. Please find the below exchange from last year (2017), and read bottom to top. At the time of this exchange, ERDI had no meaning to me yet; as Dr. Moss had not informed the Board of his participation with ERDI. Dr. Moss also filed his first Statement of Economic Interest (SEI) on the SC Ethics Commission website which included ERDI on 3/3/17, just few months prior.

Dr. Moss stated he would have Jennifer Staton upload the document of his P-Card charges to the BCSD website, but I cannot find it in the 2017-2018 FOIA folder.

ERDI was Dr. Moss' second job/source of income while employed with the BCSD. Many of our employees have second jobs, particularly our teachers. If any one of our district employees used a district-issued credit card for taxis or parking at their second job, I believe they'd be charged with fraud (think LIMS bookkeeper), reported to police, and Alice Walton would pay them a visit.

Questions:

1) Who authorized Dr. Moss' use of a district-issued credit card for ERDI related expenses?

2) Did Dr. Moss' reimburse the BCSD for all ERDI related expenses?

3) If Dr. Moss did not reimburse the district for ERDI expenses incurred, then I believe his actions constitute fraud.

We would expect more from our lowest-ranking district employee, so we should certainly expect more from our highest-ranking (albeit prior) employee.

Please advise.

Respectfully,

JoAnn Orischak

JoAnn

Yes, the Local Travel Allotment is a separate check monthly to cover the costs of travel within Beaufort County. You will not see any travel reimbursement or charge for Local Travel. The taxi charges and rental car charge were associated with National Conferences or meetings with the FCC in Washington DC. The restaurant charges of significant value were board members dinners at those National Conferences, FOOD ONLY. I will go through each of these for the last three years and provide an additional explanation so the community members who have interest will not have to speculate on the charge and will have factual information.

Subject: Re: Superintendent Credit Card

Just to connect the dots on community members' comments about the superintendent's compensation level, they are aware Jeff receives \$850/month on in-district travel per his contract. (I assume this monthly \$850 is included in Jeff's pay checks?) Anyway, considering automobile reimbursements are part of the superintendent's compensation, we would not expect to find those expenses on his credit card, as that would be double dipping.

Other questions I have about some charges listed her can wait for another time. I will share the attached with those who have inquired. Thanks for your prompt response, Tonya.

<Tonya.Crosby@beaufort.k12.sc.us <mailto:Tonya.Crosby@beaufort.k12.sc.us> > wrote:

Ms. Orischak,

Please see the attached document which provides a list of all transactions for the past three years on the Superintendent's P-Card. The monthly limit of \$20,000 is a standard limit assigned to cardholders by the P-Card Specialist under the supervision of the Chief Finance & Operations Officer. Regardless of the card limit, the requirements of the Procurement Code and other District policies still apply.

Upon research, I found that the Superintendent's monthly card limit has been \$20,000 as early as 2008. The card limit has no correlation to the amount of the Superintendent's compensation level.

I hope this information proves to be helpful.

Sincerely,

Tonya V. Crosby, CPA

Subject: Superintendent Credit Card

Tonya,

Since the list of BCSD credit cards has been made public (and who they are issued to), questions have come up regarding the superintendent's \$20k/month limit.

Can you provide a list of all transactions attached to this card for the past 3 years? Folks are wondering several things, but here are the two most common questions: 1) Why is the monthly limit so high given the superintendent's compensation structure?, 2) Who set/determined the monthly limit on this card?

made public. Whatever information you provide on this will obviously be

Oh, for crying out loud! I feel your pain, Sean.

Let's keep going at this with varying search criteria until you get what you are
looking for. How about asking for all electronic communication between Jeffrey Moss and
Bonnie Almond from date?-date?

Where we seem to be getting hung up is the optimal way to reference Michael Kelley. From previous emails, Dr. Moss clarifies that he misspelled Kelley as Kelly. AND to further compound matters, he would often refer to him as Mr. Kelly, and not Michael Kelley or Michael Kelly.

I am copying Jennifer Staton on this email. If I can clearly understand your request, then she must as well. Perhaps Ms. Staton can provide optimal search parameters to yield the communications you are looking for.

Please let me know if there is anything else I can help with at this time.

Mr. Henrickson-

Your request is the same as the one the BCSD responded to on June 28, 2018. I have restated the response below:

The Beaufort County School District (BCSD) has performed a search for your request, "(1) E-mail correspondence between Jeff Moss, Bonnie Almond and/or Andrew Wichers concerning Michael Kelly. (2) Written communication from BHS or BCSD to Michael Kelly specific to his restriction to enter BHS campus." The BCSD has discovered no public documents responsive to your request. If you feel this is in error, please review your request and resubmit with any updates/corrections.

Please make sure your request includes specific information about each record sought, such as the date, title or name, author, recipients, and subject matter of the records and resubmit your request. For Technology to search on the e-mail archives of an employee, your request terms need to be exact, the algorithms are not intuitive. If you think that e-mails should have been returned, but were not, please make sure all of your search terms are spelled correctly. For example, did you mean "Michael Kelley"?

Fourth FBI subpoena is focused on former Beaufort County School superintendent Moss

A total of four subpoenas have been served to the Beaufort County School District and its employees for an FBI investigation. Here's the timeline of events.

Up Next

Fourth FBI subpoena is focused on former Beaufort County School superintendent Moss A total of four subpoenas have been served to the Beaufort County School District and its employees for an FBI investigation. Here's the timeline of events.

The Beaufort County School District has again been subpoenaed by the U.S. Attorney's Office for documents related to former superintendent Jeff Moss' five-year tenure at the district — including Moss' personnel records, as well as information about the district's connection to the controversial Education Research and Development Institute <<https://www.edweek.org/ew/articles/2005/01/12/18consult.h24.html>> and more than 30 other companies.

It is not clear whether the federal subpoena issued to the school district on Aug. 2 is part of an ongoing FBI investigation

<<https://www.islandpacket.com/news/local/education/article198290884.html>> related to the construction of two Bluffton schools

<<http://www.islandpacket.com/news/local/education/article33533451.html>> , in which three previous federal subpoenas have been issued to the district and its employees since January.

The newest subpoena requires the district to hand over Moss' personnel file, including employment contracts, annual performance reviews and ratings, disciplinary records, outside employment requests and disclosures, travel and entertainment expenses, as well as bonuses, "ethics training received" and "conflict of interest disclosures" from August 2013, when Moss started with the district, through the present.

Investigators are also asking for "the evaluation, procurement, contracts, and purchase of products and services by the Beaufort County School District" of 34 education product companies.

The first company listed is the Education Research and Development Institute.

Moss worked as a paid consultant for ERDI for at least the past two years, according to his Statement of Economic Interests filed with the State Ethics Commission.

ERDI is an organization that pays superintendents and school administrators to attend meetings with educational technology companies and to offer feedback about various educational products.

He was not required to disclose the amount that he earned from the organization.

The board was notified about the fourth subpoena in a closed-door meeting Aug. 7 before its regularly scheduled public meeting.

Geri Kinton, the board's vice chair, said the content of the most recent subpoena does not change her longtime support for Moss because "all it is is a request for information."

Kinton said she believed Moss told the board during a public meeting that ERDI had approached him and he was interested in working with the organization. She could not say exactly when he brought the matter to the board, but she thought it was in 2014.

Bill Evans, a former board member who served during 2014, said he thought Moss was either already a consultant with ERDI when he joined the district in 2013 or that Moss began working with the organization in shortly after coming to Beaufort County.

He did not recall Moss bringing up the matter in any “official setting” — either during a public meeting or an executive session.

Evans did, however, say he recalled Moss mentioning the organization several times, such as when Moss would take a trip to a meeting that the organization was hosting.

Bill Payne, who has been on the board since 2014, said he remembered Moss mentioning ERDI at some point. But, Payne said Moss worked with a number of outside organizations, so he could not specifically say when Moss told the board about ERDI.

On multiple occasions, superintendents and administrators across the country have been accused and found guilty of ethics violations for concealing their outside consulting roles and conflicts of interest.

In April 2017, former Chicago Public Schools CEO Barbara Byrd-Bennett was sentenced to 4 1/2 years in prison for trying to collect hundreds of thousands of dollars in kickbacks for handing out contracts to an education consulting firm where she had previously worked, according to The Chicago Tribune <<http://www.chicagotribune.com/news/local/breaking/ct-barbara-byrd-bennett-sentence-met-20170428-story.html>> .

In a similar case in April 2018, a former superintendent of Baltimore County Public Schools was sentenced to serve six months in prison after he pleaded guilty to four counts of perjury for failing to disclose income for his outside consulting and speaking engagements, some of which were through ERDI, according to The Baltimore Sun <<http://www.baltimoresun.com/news/maryland/politics/bs-md-co-dance-sentencing-20180416-story.html>> .

Moss resigned from the district May 15 <<https://www.islandpacket.com/news/local/education/article211217119.html>> , two years before his contract was up and after five controversial years in the district — which included two failed referendums, two guilty pleas to state ethics violations over the hiring of his wife in a high-paying district job and the ongoing FBI investigation.

His last day at the district was July 31.

The subpoena issued Aug. 2 was released to The Island Packet and The Beaufort Gazette on Tuesday afternoon after the newspapers submitted a second Freedom of Information Act request for “any federal subpoenas issued to the Beaufort County School District.”

The district released all three subpoenas in its possession, including two subpoenas from December 2017 that the Beaufort County school board had refused to release in February

<<https://www.islandpacket.com/news/local/education/article200630294.html>> , citing a preference from the U.S. Attorney's Office in South Carolina that they not be released and saying they wanted to protect the integrity of the investigation.

Board members also received copies of the subpoenas for the first time Tuesday afternoon.

Subject: Re: Fool me twice, shame on me!

She could run on the fact that she did take a STAND for the children. She did this twice. She chastised a resident of Beaufort County for using the word hell during a comment he made at a board meeting. She was concerned children might be watching the County Channel and thought they shouldn't be subjected to foul language. News flash, if a child was watching the County Channel they have access to cable. Since the FCC doesn't regulate cable stations, the children are subjected not only to the word hell but many more "vulgar" words that I won't go into at this point. She neglected, however, to chastise Earl Campbell when he said that everyone who criticized the actions of the school board "Would die and go to hell." In his case he was using the word with malicious intent and yet she was silent. What's up with that?

Then there was one more time that she took a STAND for the children. Just recently she complained that anyone could look into the modular classroom windows. She was probably thinking of the pedophiles from the nearby trailer park that she protested against. Actually, not sure what she was implying but she should be more concerned with the lack of security in general at all of the district's schools. Peeping Toms should be at the bottom of her list of campaign talking points.

This Bluffton representative is running for a third term on the Beaufort...

Evva Anderson filed for re-election to the District 7 seat, which represents the greater Bluffton and Okatie are...

Usually when an incumbent seeks re-election, they rely on their significant accomplishments while in office as a springboard to another term. For Ms. Anderson that may prove to be somewhat challenging, unless one considers the following to be significant accomplishments;

Voted to authorize a Two Hundred eighty thousand dollar golden parachute to a former Superintendent of schools currently the focus of an FBI investigation.

Voted to authorize spending hundreds of thousands of dollars on not 1 but 2 failed referendums.

Then there was her poor judgment on the infamous nepotism issue in 2015 and the two ethics violations in 2016.

Ms Anderson is quoted; "Concerning the ethics case involving the superintendent, the board, of course, is pleased that the matter was resolved in early August and is now behind us," then-secretary Anderson said last November.

Since she cant run on her voting record nor claim she was supportive of fiscal responsibility or transparency, ...maybe she is running on her attendance record.

The motto in Dist. 7 should be...Fool me once, shame on you. Fool me twice, shame on me!

G.A. Smith

U Vell represented in Dist. 11.

All,

Wishing all of you an uneventful meeting with Florence should she visit us.

Not sure how we'll be proceeding in our household as of yet. Still mulling over plans.

Kindest Regards,

District 11

She could run on the fact that she did took a STAND for the children. She did this twice. She chastised a resident of Beaufort County for using the word hell during a comment he made at a board meeting. She was concerned children might be watching the County Channel and thought they shouldn't be subjected to foul language. News flash, if a child was watching the County Channel they have access to cable. Since the FCC doesn't regulate cable stations, the children are subjected not only to the word hell but many more "vulgar" words that I won't go into at this point. She neglected, however, to chastise Earl Campbell when he said that everyone who criticized the actions of the school board "Would die and go to hell." In his case he was using the word with malicious intent and yet she was silent. What's up with that?

Then there was one more time that she took a STAND for the children. Just recently she complained that anyone could look into the modular classroom windows. She was probably thinking of the pedophiles from the nearby trailer park that she protested against. Actually, not sure what she was implying but she should be more concerned with the lack of security in general at all of the district's schools. Peeping Toms should be at the bottom of her list of campaign talking points.
